

Change log

Welcome! See what we've been working on...

Please browse below to see what we've been doing. The list below only shows the items that may directly affect our users. Work that we do that is not changing our services is not listed here. When possible we will link to articles in the User Guide regarding any features or changes.

1/4/18

Dogs are no longer required to have a Primary Breed selected. Dogs with no breed (unknown breed) will be exported to Adopt-a-Pet.com and Petfinder as their supported Mixed Breed.

 [GMTY-296](#) - Allow dogs without a breed (unknown breed aka: mixed breed) CLOSED

10/15/16

The URL used to manage your RescueGroups.org has changed. Please go to <https://rescuegroups.org> and click Login. Any links or bookmarks to the old URL will automatically redirect to the new URL.

9/3/16

Additional API exports (websites and apps that are not yet public) are now listed on the Animals > Exports page.

8/25/16

Organizations can now enable and disable their exports to the Adopt-a-Pet.com website from their Animals > Exports page. Organizations can now disable the Pet Adoption Portal interface/website.

5/25/16

Pet export to the Adopt-a-Pet.com website now will include up to 500 adopted pets (and all adoptable pets). Upgraded search engine back-end (should be no perceivable difference).

5/15/16

Posted to the [Beta Testing group](#) about upcoming changes to the Logins

 [DM-722](#) - Jira project doesn't exist or you don't have permission to view it.

 [GMTY-150](#) - Name and Email Address fields do not appear on PDF version of applications CLOSED

 [GMTY-234](#) - Not all active animals are showing under My Fosters CLOSED

4/18/2016

Account administrator can now remove a microchip registration.
Account administrator can now delete an Outcome.

12/5/2015

Updates to prevent duplicate email addresses on Logins.

11/14/2015

Minor fixes to the next/previous pets in the Toolkit v3.
Updated the Outcomes data tables to show the Animal Condition from the Outcome (instead of from the Intake).

11/5/2015

Bug fixes: \$0 donation added when editing an Adoption, and Adoption Lead not being saved when adding an Adoption.
Outgoing Email Marketing Campaign emails will use a Reply-To header for emails being sent from @aol or @yahoo email addresses.

11/4/2015

Outgoing email from @yahoo and @aol email addresses will use a Reply-To header. This should alleviate some of the [issues related to the Yahoo/AOL DMARC change](#).

7/19/2015

Management App for Android released in the Google Play store!

<https://play.google.com/store/apps/details?id=org.rescuegroups.manage>
