

# \_Updating\_and\_confirming\_your\_domain\_name\_contact\_in formation\_Intro\_v1

You can change the contact information on your domain names at any time. In fact, organizations that have a domain registered with RescueGroups.org are required to confirm their contact information on a regular basis. You will receive a regular email notification that tells you when to update your domain contact information. In doing so, you may notice that the contact information is out of date and needs to be changed. Follow the directions below to change the contact information for your domain.

## ✔ Where do I find it?

You can update or confirm your domain contact information from the **Domains** control panel. Go to **Services > Account Administration > Your Services > My Domains (Under the Domains Menu) > Edit Contact Information**.

### Account Administration

<a href="#">Contact Information</a>	<a href="#">Billing Information</a>	<a href="#">Invoices</a>	<a href="#">Website Hostname</a>	<a href="#">Data Recovery</a>	<a href="#">Audit Log</a>	<a href="#">Your Services</a>
<a href="#">Messaging Settings</a>
