

Updating and confirming your domain name contact information_Content_v1

What to do when you receive a notice about confirming your domain name contact information

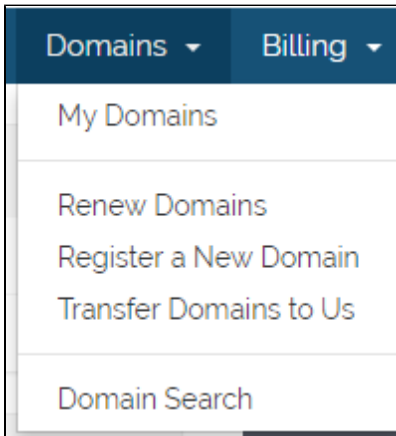

When you receive a notice asking you to confirm or update your domain name contact information, the letter will look like the one below.

To confirm or update the contact information for your domain:

1. Click the **Your Services** button from the **Account Administration** button in the **Services** tab of your account dashboard. A new screen opens.

2. Click **My Domains** under the **Domains** menu.

3. Select **Edit Contact Information** under the menu for the domain name that you need to update.
4. Make sure the **Specify custom information below** is selected, and then update the information if necessary.
5. Click **Save Changes**.
