If you plan to use this new domain name with your RescueGroups.org service, follow the instructions for [Adding an existing domain to your account](#).

Do not add web hosting to your domain registration

During the registration process, you are asked if you want web hosting. We are hosting your site, **do not add web hosting to your domain name registration purchase**. We host your site for you.

Also, there is an option for custom nameservers. We handle this for you; you don't need this option.
