

Using the Special Lists Settings Content v1

The Special Lists are as follows:

Special List	Description
Kittens / Puppies	Enter the age range, like 0/180 for animals 0 days to 6 months old to be shown
Teens	Enter the age range
Adults	Enter the age range
Seniors	Enter the age range
Urgent	Automatically updated from the Highlight field (a highlight of 0 is urgent). See the Highlighted Animals for more information.
Long Time/Must Adopt	Uses the Received Date field from the animal to show only animals that have been in your organization for the specified time
Special Needs	Automatically updated from the Special Needs animal field
Needs a Caretaker (Foster)	Automatically updated from the Needs a Caretaker animal field
Recent Arrivals	This uses the Received Date field from the animal to show only animals received within a certain number of days
Courtesy Listings	Automatically updated from the Courtesy Listing animal field

Special Needs

To automatically add an animal to the Special Needs web page:

1. Enable Special Needs in your [Special Lists](#).
2. When Adding or Editing an Animal, enter in some text in the **Special needs description** in the Additional Notes and Comments section.
3. If the special needs animal also needs a sponsor, you can enable the Sponsorships for that animal. See [Animal Sponsorships](#).

Additional Notes and Comments

Origin	<input type="text"/>	Private notes	<input type="text"/>
Special needs description	<input type="text"/>	Sponsors	<input type="text"/>

How to Add Special Lists to a Custom Menu

i Many of the [RescueGroups.org](#) layouts and menus will automatically show links to the Special Lists that you enable using the Default Menu. If you have a Custom Menu you may need to manually add the Special Lists links to your menu.

If you do not see the **Special List** you would like to use in your website menu or in your link list, please see how to [Add a Menu Item](#).
