

# Managing animal files

Each animal can have an unlimited number of files and documents associated with it. You can decide if you want the files to be public or private, so even a visitor to your website can download a file from an animal's web page.

## Where do I find it?

You can find the files already uploaded for an animal or you can add files to an animal's file from the animal's information page.

- [Edit an animal file](#)
- [Delete an animal file](#)

To add or to review the files uploaded to an animal's information page:

1. Log in to your account from RescueGroups.org.
2. Either use one of the methods of searching for an animal to find the animal you want to review or go to **Animals > Animal List** and scroll down to or search for the animal you want to review.
3. At the top of the animal's information page, you will see a list of links, click on **Files** to add or view files for this animal.
