Alternate ways to Search for a Contact

There are several ways to search for contacts.

Searching from the Quick Links

Using Search Site

On the left side of the page, there is a quick search box. You can enter what you would like to search for (name, email address etc.), then select **Contacts** from the drop down and click **Go!**

Searching from the Contacts List

From the **Contacts** List, you can click on the search icon above the contacts data table.

Searching Specific Fields in the Data Table View.

You can search for a contact from the contacts data table by clicking on the little search icon on the right side of the data table which will open up fields for you to search.

Depending on your [Data Table View](#), you may have more fields to search. You can also [create a custom data table view](#) and search on fields in that view.
