Finding the contact

If you need the online forms submitted by a particular contact, you can search from your home page for the name of the contact. See the chapter [Searching your account](#) for details on the various ways to search. You can search for your contact from the Contacts list: **Contacts > Contacts List** and click **Search**.

The **Contacts Search** page opens. Type what you can remember of the contact's name in the **Search term** field. The search results open as a data table.
