

About the Pet Adoption Kiosk

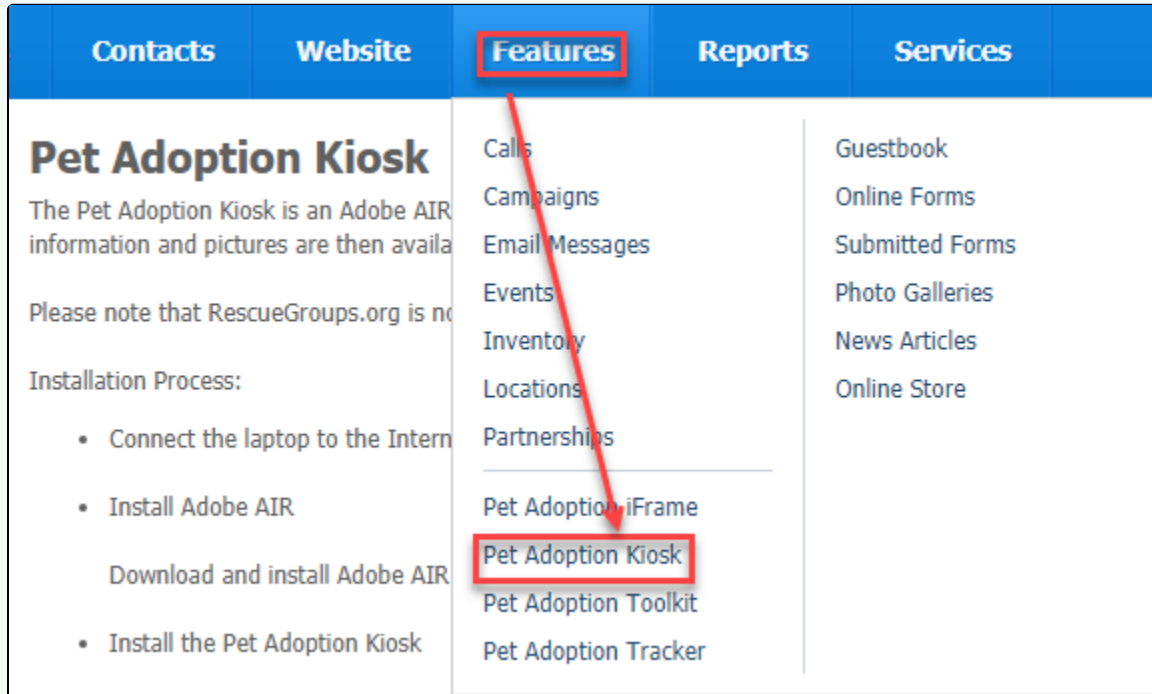

The Pet Adoption Kiosk is an Adobe AIR application that can be installed on your laptop or desktop (Windows or MAC). The Kiosk downloads a copy of your adoptable pet information, including pictures. The information and pictures are then available on your laptop for people who are interested.

For instance, your organization might be hosting a booth at an animal festival, and your adoptable animals are not in attendance. Instead, you've been invited to bring literature and items for sale. You can set up a laptop, start the Kiosk, and show visitors to your booth your adoptable animals.

Where do I find it?

To use the Pet Adoption Kiosk, go to **Features > Pet Adoption Kiosk**.

The Pet Adoption Kiosk is available to users with Animal Add or Animal Admin roles

- [Using the Kiosk](#)

Installing the Kiosk on your computer

Follow these instructions to install the Kiosk on your computer before the event:

1. Obtain an API Key from RescueGroups.org.
2. Connect your computer to the Internet.
3. Download and install Adobe AIR here:
<https://airsdk.harman.com/runtime>
4. Run the application.
5. Open the Kiosk application by going to **Features > Pet Adoption Kiosk**.
6. Log in using an API Key and your organization's site code. This information will be available on the **Pet Adoption Kiosk** page of your website once you've obtained an API Key.
7. Click **Download Adoptable Pets**.

Using the Kiosk

At the event, start your laptop, then start the Kiosk application and click **View Adoptable Pet List**. When done, simply close the application.

NOTE:

RescueGroups.org is not currently enhancing this application.
