# Changing your active menu (activate your custom menu)

You can change the menu that is active on your website whenever you want. You can create a custom menu for the holidays, for instance, or in anticipation of a big adoption promotion.

> ⊘ **Where do I find it?**
>
> You can find the Menus page by going to **Website > Menus**.

On this page:

- Set the default (RescueGroups.org provided) menu as your active menu

---

Click the **name of the menu** you created.

☐ All	Name ▲	Menu Items
☐ 📝 🌐	custom menu	21

then click **Activate**.

When you view your website, you will now see your custom menu activated.

Set the default (RescueGroups.org provided) menu as your active menu

Do the following to set your menu to the default dynamic menu provided by RescueGroups.org:

1. Open your Manage account.
2. Go to **Website > Settings**.
3. Scroll down to Site Layout Options.
4. Select **Default RescueGroups.org Menu** from the **Active Menu** drop down.
5. Click **Save Settings**.
