

Changing the text appearance for Highlighted Animals Content_v1

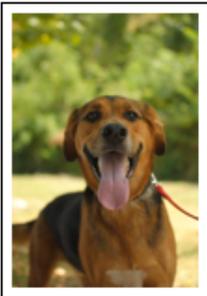

Using code to adjust the width and line height

The portion of the HTML code that contains the code for the text used for highlighted animals is:

```
.highlightedInfo
```

Using the code below, we've adjusted the width of this section to 500px wide and added a Google font and some line-height for readability.

```
.highlightedInfo {  
width: 500px;  
font-family: "Ubuntu", sans-serif;  
font-weight: 400;  
font-size: 14px;  
line-height: 1.95em;  
}
```

Chilly is a sweet and loveable boy who enjoys belly rubs, chew toys and time with his person. He gets along with most other dogs and likes to initiate games of chase. He is an active fellow wh...[read more about Chilly](#)

.highlightedInfo

If you want to style the entire **Highlighted** section, the code below can help get you started.

```
/* ////////////////////////////////// */  
  
/*HIGHLIGHTED*/  
  
.highlightedInfo {  
text-align: justify !important;  
width: 500px;  
}  
  
.highlighted {  
margin: 5px auto 50px;  
}  
  
.browse, .highlightedInfo {  
font-size: 14px;  
}
```
